NAVY SECRETARY **DENBY RESIGNS**

PRESIDENT COOLIDGE ACCEPTS DECISION OF CABINET . MEMBER

RETIREMENT DATE MARCH 10

Birthday-Roosevelt Acting Secretary.

Washington-Secretary Edwin Den by has resigned and will retire from the cabinet on March 10.

The President, in a letter accepting the resignation, praised the official record of his retiring Navy Secretary and said he acceded to the request with regret.

Theodore Roosevelt, who as assistant secretary under Mr. Denty, he a part in drafting the order which transferred the naval reserves from the Navy to the Interior Department. conferred with the President and an-

nounced he did not expect to resign. Secretary Denby's decision was reached after personal and political riends had advised him not to coninue the attitude of defiance resolution asking that he step out of

The Senate attack was not directed against any suspected moral wrons doing on the part of Mr. Denby, but was based on charges that he had not a sufficiently diligent public servant in his connection with the oil

Mr. Denby's resignation was sub mitted on his 54th birthday, just after he had gone to the Navy Department to find his office filled with flow ers from his friends.

The department will be in the hands of Theodore Roosevelt, Assistant Secretary of the Navy until Denby's suc cassor has been appointed.

REDISTRICTING SEEN AS ISSUE

Re-apportionment Propositions May Be Placed on Ballot,

Detroit-Three distinct re-apportion their way on the November election ballots by initiatory petition, two c them originating in Wayne county, which was deprived of adequate repatubborn defiance of the constitutional resentation through the legislature's apportionment mandate, and the third presenting an attempt of outside tion so as to forever prevent Wayne from getting the representation to is entitled under the present constitution.

-Wayne county law makers during the last few weeks have been concentrating their effort on a simple con stitutional amendment providing another effective alternative to force a re-apportionment when the legisla-

Adoption of this amendment would automatically force the legislature to act at its next session, it is argued because its members would view with misgivings a reapportionment made by any other state authority.

third apportionment issue is ex nected to express the ideas embodied in a resolution passed by the state association of aspervisors at its re cent Lansing meeting, that represents tion be based on citizenship rather than population.

FARMER'S BUREAUS ASSISTED

State to Allot Cash for Promoting Development of Land.

Lansing-A co-operative arrange ment between the bureau of agriculture industry of the State Department of Agriculture and the three large pri vately operated development Sureaus in Michigan is being perfected by A. C. Carton, director of the state bureau.

Under this plan \$5,000 would be urned over to the development organizations to help carry on their regular work and to reimburse them for teaches along with his program of guiding state clients to worth while pleases all, the young, the old, girls and hove more and to the state of the stat

have been if he had kept that other pounds of corn will produce a pound

"I'll Take a Chance!"

THE thought that goes with the cup of coffee at the evening mealis a disturbing one. "It may keep me awake tonight!"

The something [caffeine] in coffee that keeps so many folks awake nights. is entirely absent in Postum-the delicious, pure cereal beverage. The difference means a full night's rest and a bright tomorrow.

Postum for Health

"There's a Reason"

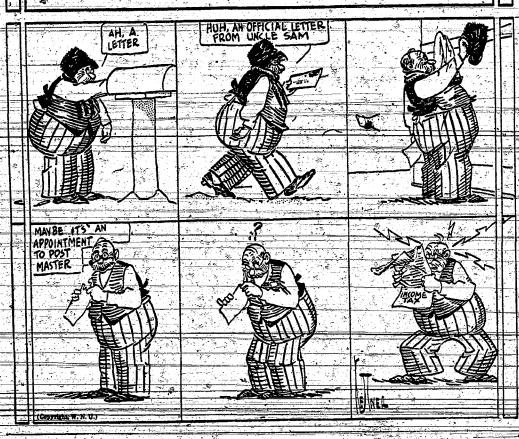

Posum comes in two forms:
Instant Postum [in tims] prepared instantly in the cup by
the addition of bother water.
Postum Cereal [in packages]
for those who prefer the flauge
trought out by bother fully
20 minutes. The cost of either
form is about one-half cent a
cun.

WITH THE HIGH SCHOOL CLASSICS

"Cured by wearing a spider hung round one's neck in a nutshell," goats, draperies, coverings everything new, even if she has never dyed before.

Among the most interesting of superstitions are those concerning substitutes and its cure. Wening something and its cure wearing something and its cure in the superior of disease or to cure disease is one of the most at much in voice now as it.

In Evangeline's day, Circles, and its cure in Evangeline's content of the most increase in Evangeline's cure in Evangeline's c almost as much in vogue tow as it was in Evangeline's day. City school tench-ers can tell a tale of woe about the litthe fed fannel bags filled with asafor-thia or with garife cloves that tene-ment children wear to protect them from sore throat, diplitherin, whooping cough, and the like. Strings of Job's tears are still sold to mothers who he leve that a baby that wears a string. of these tears will cut its teeth pain lessly. Itablits' feet, secured mader proper conditions, when sorn on a string around the neck will protect the wearer from a variety of allments, as well as bring him good hick.

There is scarcely a community that does not boost of attlems one person be accompanied by the repetition of a charm that cannot be communicated who is a pillar in the church and a mainstay of the local cultural moves ments; but she still blows fire out of her neighbors' burns. There is scarcely a community

ure" a child and so cure it of the "take off," an allment that doctors dignify by

There are likewise few communities, that lack at least one "pow-wow" flor-for who will cure any sort of allment. from colic to cancer by reciting charms and incantations. We usually pride pow-wow doctor or some one who did ways had an aunt or a cousin or a neighbor who this believe in them.

"And that other child, not on the hearth-he would not forget it; he yould see that it was well provided for. That was a father's duty."—Silas Mar

say it is not the father's daty to see that his children are well provided for pered, to go about their work or play

some obserted spot where they would speedily dieset exposure. Only the strong and healthy were allowed to

Unless some such artificial means of selection is employed, then the only means we have of securing the survival of the fit is to hold each faffier responwille for the support of his own children. The idea is that if each father must support his own children, then the strongest, ablest, most huelligent fathers will be the ones who can provide for the most children, and so will have the greatest number of children reach adult life.

Just now we are living in a period when neither natural selection nor artificial selection is allowed to operate We have in every community organizations that spend much money and more energy in trying to keep alive every baby born in that community—whether erippled, diseased or Teeple-minded We now gauge our civilization by our infant death rate—the lower the rate the more civilized we consider ourselves as if it were a more humane thing to nurse a suffering weaking to adult life. where he must take his crippled place in life's battle, rather than to let him die during his infancy.

When natural selection is not al lowed to operate by making every fa-ther responsible for the support of his children, and when the state has no sort of artificial selection such as that employed in ancient Greece, the quality of the population is bound to be low-ered, so say the biologists. They say the results of our present-policy are already very evident. The University of Oregon, for example, made a state vide survey of mental defectives a few years ago, and fund that out of a population of 783,000 more than 75,000 were dependent, delinquent or feeble minded all unanie or work and a conorality of the state. There is no rest son to suppose that the older states are any better off than this state, which is still so close to pioneer conditions.

Why You May Need-

There are three main groups of prospective buyers of Chevrolet automobiles and commercial cars.

First, are all who know from comparisons or through the experiences of friends that Chevrolet provides the utmost dollar value in modern, economical transportation of people of merchandise.

Second, the large group of people with modest incomes who have the false impression that so good a car as Chevrolet is beyond their means.

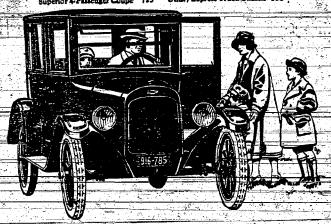

They do not realize that due to engineering excellence and full modern equipment, Chevrolet operating and maintenance costs average so low that during the life of the car, it delivers modern, comfortable, fast transportation at the lowest cost per mile, including the purchase price.

Third, the smaller but very important group of car ow Inited, the smaller but very important group of carowners of ample means, only a small percentage of whom as yet realize that Chevrolet as an extra car virtually costs them northing, due to the reduction in their transportation expenses effected by it.

We respectfully suggest consideration, investigation comparison of Chevrolet with any other car at any

BOYS AND GIRLS TAKE EASY VICTORIES OVER NORTHÉN-

Grayling High School teams deleated both the boys and girls teams of Gaylord on the local floor Wednesday night before a good representation of citizens of both cities. Both were fine games to look at and althe Gaylord lost both games, at times they put up some pretty fas plays.

The Gaylord boys showed goo passing but seldom were able to get beneath their own baskets and their shots failed. They 'Long Tom' were unable to break thru the local guards. Grayling boys mixed their plays so frequently that the visitors were unable to dope them out until too late to stop the scoring. Gaycommends - Protection or est aggregation that town ever sen out However, onder the able in structions of Coach Crane we doubt if there is a northern Michigan school team that can defeat our team on a neutral floor.

Season this year but were no matel for the "Bobbies!" The latter play-od rings around the visitors and seemed to score almost at will With Entered as second class matter at moves for the protection of true for the "Robbies." The latter play the Postoffice, Grayling, Mich., under sport that has been made by that seemed to score almost at will. With the act of Congress of March 3, 1919, very wide awake conservation des Collen and Sullivan as forwards. Ah THURSDAY, FEBRUARY 14, 1924. Limiting the catch of the Great Johnson and McDonnell or Taylor at Burney of the Smoothest Worthern or Grass pike, to eight fish guard we have one of the smoothest working only the smoothest working the smoothest wo est working girls teams this city has ever produced. The forwards are specially fast and put the finishing touches to the excellent offensive work of the centers.

Fixes Glock 200 Years Old. Cleveland-A clock made in. 1708. which is expected to tick on and on for another 200 years, overhauled here by J. H. Fewler, expert clock workman, who has been at work on it for three weeks. The clock is all of metal. hand-hammered and sawed. Flower's work has included modernizing the source of motive power by substituting chains for leather straps

Destroy Seals to Save Salmon. Anchorago, Alaska out that Lenin gave little thought to immense herds of fur, seals has been recommended as a measure of protection for salmon in Cook Iniet. The seals are said to be making great inroads on schools of fish the spawning ground. While saving orphanages, schools, hospitals and a vast number of salmon, the trapping such institutions for the relief of the of the seals is expected to yield fisher men a comfortable income. The skin of the seals common to this region monuments to Lenin in a half dozen ylefds a fine, durable feather, also onaiderable profit in seal oil.

CHECK UP ON CRIME BY ALIENS IN U. S.

Crime by aliens in the United States is believed of sufficient percentage to have considerable influence for further restriction of immigration. This is the contention of the Americanism complision of the American dean Legion, which will use the results of a survey of such crime in substantinting the Legion's plea that all

period of years. "Illicit traffic in drugs in the United States is directly traceable to aliens in the nation," Garland W. Powell, director of the Americanism commis sion of the American Legion has declared. "The Legion does not impute that all crime in the nation is committed by allens, but many law viola-tions can be laid at the doors of those who disregard our laws, and who do not pay allegiance to the nation in which they live."

In preparing for a survey of all courts, prison and penal institutions, requests have gone out for the number of cases pending against allens for robbery, murder, violations of the pro-hibition and narcotic acts and other crimes as compared with such cases against Americans, Similar information is sought from prison authorities and heads of penal institutions.

To Probe Neglect of Veterans in Hospital

An investigation of reports of neglect of war veterans at the hospital and vocational training school maintained by the government at Perryville, Md., has been undertaken by officials of the American Legion.

Col. D. John Markey, department commander of the Legion in that state. Major Warren S. Lloyd, department ant and Dr. Arthur P. Herring commissioner of mental hygiene, made personal visits to the hospital in this connection.

Four veterans in the tailoring school of the institution charged that the nt for proper instruction equisitions for such equipment and veterans also charged that necessary lext books were not supplied. This hospital figured in the recent

erans'-bureau, under Digector Charles R. Forbes. It was declared by certain witnesses, that \$3,000,000 worth of supplies were salvaged and sold to a firm in Boston for \$600,000.

Tattered Flag Prized by Canton, China, Men

During the way a Chinese soldier, Sam Son Heat, lost his life while serving with the American army in France. Prior to burish the body was wrapped. in an American flag, but, so placed it over his grave, where it flew from a bamboo pole until it be-

Withen the holy was sent back to Tol-Stan, his native home, an Amerimined of the fing to his rela tives. -The Legion then assisted the widow in obtaining the claims on the government. In token of the appreciation, the

China, post of the Legion the tattered. emblem which had waved above the grave in France. This is one of the prized relics of the post.

Taint of Charity Is to Be Thing of Past

The faint of charity will be removed-from veterans' relief in Chigopee, Mass, if members of the American Legion have their way about it. Administration of a fund for relief of needy veterans has long been under direction of charity-workers-employed by the city council. If a vet-eran applied for aid, his name went on record as receiving charity which is said to have kept many a former soldier from applying to founded primarily to help the former service man along until he became scttled.

in a special resolution sent to the city council the post asked that disbursement of this fund be in the hands of a veteran familiar with the men's cases and that such relief no langer be considered as an act of charity.

COW AND PIG

"Great news! Great news! Moo, She really was much excited. She andn't been so excited in months and months—not since that time when a strange dog had barked at her and chased her over the pasture and into the woods beyond.

But this time she was excited and yet not affaid. The time the dog had chased her she had been affaid, too. It was no fun to have a dog celping No fun at all.

Yes she had been quite alarmed that time and had not liked it in the

In fact the milk she gave to the farmer's family that evening had not heen so good.

But this time she was excited and such a surprise and she was delighted. Great news! Great news! Moo. on great news " she cried again. And then she walked over by the fence und looked into the Pig Pen just beyond. "Pige" she said. "I would have

words with you."
"Grunt, grunt," sald Pig. "What
words would you have with me?
Pleasant words—words such as Weeds." Food Mud Scratching? Wint words would you have will have. "No such words as you have mentionfol," said Mrs. Cow,

"You probably know more words which means the same as the words Twe said, Pig unswered. No. no. no Said Mrs. Cow

can be pleasant? I'm ans Because they flatter us," Mrs. Cow -Pd-rather, be fed, than I fluttered âny day," said Pig.

'I Would Have Words With You!

. She couldn't imagine any one say-ing to Pig that he had lovely eyes. The very thought was funny. The very thought was round.

"I really have pleasant words to tell

fou or rather pleasant and good news," said Mrs. Cow, "even if the news is to be something you don't ex-Cow was herself fond of food and per-

For all I know they may have done this already. But think of the compli-ment! That a cow and a pig should zoos so that children could learn nhout the two great-country animals

is simply fine.

It is such an honor, such a compil-ment. You see, they have found that some city children did not know what a pig on a cow looked like. Terrible ignorance, of course,

But do you suppose such ignorance will be, allowed to exist? No, it must be that all the world shall know what we look like and so they are going to see to this,

"A cow and a pig! No one must femain in ignorance of us."

"Yes, that's pretty good news," said. Pig, "and when the children learn about us they || be told, of course, that we're not against being presented with gifts of food!"

Didn't Want the Job

A teacher who was giving the children written exercises; wrote out this "Wanted" advertisement:
"Wanted" A milliner: "Apply by letter to Miss Smith, 10 Blank street? The children had to make applications for the position in writing.

One youngster wrote. "Dear Miss Smith: I saw you want a nilliner. I hate to trim hats. Can't school frock. It is pictured made of you get somebody else? Please let me jersey and an embroidered monogram know at once. Edith Brown."-Tit-

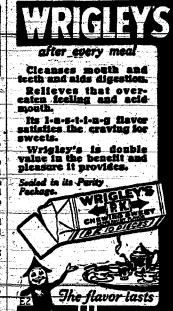

ton's preferences for this senson.

Methods and Standards, to fix for every Studebaker detail the maxi-

We created a Bureau of Research

and Experiment, employing 125 skilled men. They make 500,000 tests

per year to maintain our supremacy.

They fixed countless standards, including 35 separate formulas for steels. Then on the most important

steels we offered makers a bonus of

made the trip from coast to coast.

in efficient manufacture

mum of quality.

We built new factories - modern

HE story of Studebaker has been told by many men in many ways. Now let us tell

Studebaker growth has in late years been Motorclom's sensation. sales have mounted until last year 145,000 buyers of quality cars selected Studebakers. They paid over \$200,000,000 for them.

All must realize that a new situation has arisen in high-grade cars. You who are interested should now analyze the reasons.

72-year traditions

The Studebaker principles have be come traditions in their 72 years of existence. They have never wavered. In all changing conditions they have brought new luster to that

Men come and go, but a name like this becomes a heritage to foster and enhance. That's what we've done - we who have that name in keeping for a time.

Studebaker has always been a leader. For two generations it led in horse drawn vehicles, now prod-

ucts of the past. Most of you remember

queens of their time. They vere used by multitudes of people who loved quality and style.

When motor cars succeeded them, Studebaker became the logical leader in that field. Any other place would

The only way to the tob

ingrafted in its fiber. The only way to leadership is through super-

The leader must excel in all you seck - in quality, in beauty and in value. There is no other way to the top. Every stretch of the road is strewn with wrecks of those who tried-another.

I G H T S I X

5-Pass. 112 W. B. 40 H. P. 81045 Fondster (3-Pass.) -

Coupe (5-Pass.)

15% to conform to those standards

We invested \$8,000,000 in a drop forge plant to make all our own drop, forgings, \$10,000,000 in body plants, to build all bodies to our standards.

We employed 1,200 skilled inspectors to see that all standards were fulfilled. There are 30,000 inspec-tions on Studebaker cars during manufacture, before they go out from

That's the whole story

That's about the whole story. We simply followed the never-changing Studebaker principles. We gave to our buyers the utmost—values they

could not match. Then they turned by tens of thousands to Studebaker cars.

Over 750,000 of those cars have gone out. Their performance has developed a demand for 150,000 per year.

Every increase in sales brought a lowered cost, which we promptly gave our buyers. Today these fine cars are offering values which no rival can approach. They have made us the world's largest builders of quality cars.

We deserve a hearing

Now we deserve a hearing. All who consider a car at \$1,000 or over should learn what Studebaker offers. That in fairness to yourself and us. Check one by one the advan-tages we offer. You'll find them by the score.

Remember that 145,000 who did that last year chose a Studebaker car. There are nine chances in ten that you'll do it.

Consider our record, our accomiplishments, our policies and princi-ples. Consider that we have \$90,-000,000 at stake on satisfying men like you. Don't buy a car in this high-grade classes, thout seeing what
